*A Launchpad for
Student Entrepreneurs
+ Intrapreneurs!*

WHERE WORLD CHANGING IDEAS BECOME REALITY.

Study and Launch your business or career in **Vancouver**

Do you dream of being an Entrepreneur, working in a Startup or being an innovator in a big corporation? Do you feel the entrepreneurial pull but don't know which way to go with it? Regardless of where your entrepreneurial journey is taking you, the Global Startup School has a program to get you there.

Go Beyond the Classroom

You will learn both in and out of class as you work on a business project from inception to launch. Each course module comes with a series of relevant tasks to complete on your project. New Entrepreneurs in Residence will join the program in each module to share their wisdom, tips and techniques. Mentors are available for advice and coaching. Instructors assist you as you work through the assignments, build your business plan and develop your pitch presentation.

Work While Studying

Earn money while you study to help with living expenses. Your Canadian study permit will allow you to work part-time (20 hours per week) during the study term and full time (40 hours per week) during your term breaks. We offer workshops, hiring fairs and tools to assist you in finding work fast! Most students find entry-level jobs in administrative support, hospitality and earn an average of \$11-\$15 per hour working while you study.

PROGRAMS

Applied Diploma in Innovation and Entrepreneurship (46 or 56 weeks) *For Aspiring Entrepreneurs and Corporate Innovators*

Learn how to develop and create a business idea that will iterate and evolve and the skills and knowledge needed to launch and run a successful business. Each module takes the foundations learned in the core Innovation & Business Ideation course and puts a real-life operations, sales & marketing, financial management and communications lens on the business idea you and your classmates have decided to pursue.

Applied Certificate in Marketing for Business & Product Startups (31 weeks) *For Aspiring Marketing Managers, Community Managers and Sales Managers*

In this program, you will create a product or service from scratch by going through all the steps of a marketing process in real life conditions, including customer discovery, research, promotion, product design and brand management. You will develop your discipline in prioritizing and testing marketing ideas, and analyzing such results. You will learn and develop new marketing, strategy and growth skills through hands-on practice in your business project.

Applied Certificate in Management for Business & Product Startups (37 weeks) *For Aspiring Leaders and Business, Operations and Project Managers*

In this program, you will learn how to manage company strategy, finances, and human resources to help validate a business idea that will iterate and evolve. Each module takes the foundations learned in the core course, Innovation & Business Ideation, and puts a real-life lens on operations, financial management and communications to develop a business or new product or service idea. You will learn what it takes to make a new venture succeed and in the process, learn how to get the right people on board, communicate your vision, set and assess KPI's, and evaluate and control risks.
